DESCRIPTION

BATTERY LIFE

Approximately 1.5 years of continuous monitoring
3 replaceable AAA batteries

DISPLAY

1-day, 7-day, and long-term average radon level

FUNCTIONS

Reset button
Mode button - when pressed, displays total days measured
Free web-based reporting

VERSIONS

Available in picocurie and becquerel

ACCURACY

Unaffected by other radiation

After 7 days

80% of measurements are within 20% of the actual radon level, measured at 2.7 pCi/L

After 1 month

90% of measurements are within 10% of the actual radon level, measured at 2.7 pCi/L

PACKAGE CONTENTS

Radon detector
3 AAA batteries
Instruction manual

Product codes
EAN: 7090031102234
SKU: 223

Package unit weight
10.58 ounces (300 grams)

SPECIFICATIONS

Dimensions in inches: 4.72 x 2.72 x 1
Weight: 4.59 ounces (130 grams)
Measurement range: 0 - 500 pCi/L

Radon sampling: Passive diffusion chamber
Detection method: Alpha spectrometry
Operation environment: 39.2°F -104°F
