

AIR INNOVATIONS®

HUMIDIFIER DEMINERALIZATION FILTER

Thank you for choosing the Air Innovations® Humidifier Demineralization Filter. This powerful Demineralization Filter will help to prevent hard water build-up which produces white dust, by removing calcium and other impurities in the water.

This Filter works with all Air Innovations® Bottom-Fill and most Top-Fill Humidifiers. For a complete list of compatible humidifiers, please visit our website or call customer service (see info below for contact information).

The filter will last up to 45 days depending on water quality and usage.

TO USE WITH AIR INNOVATIONS® TRADITIONAL BOTTOM-FILL HUMIDIFIERS

Remove existing Filter from bottom of water tank by turning counter clockwise. (1) Fill water tank and then insert Demineralization Filter and secure Tank Cap by firmly turning clockwise until tight. If any water is leaking, remove the Tank Cap and retighten. (2) **⚠ WARNING: DO NOT** place Water Tank on the humidifier Base if the cap is leaking. If water is leaking from the cap, remove the Tank Cap and retighten.

TO USE WITH AIR INNOVATIONS® TOP-FILL HUMIDIFIERS

Remove the Tank Cap from the Demineralization Filter by turning counter clockwise. (1) Reach into the Water Tank and remove the existing filter by turning counter clockwise. (2) Replace with Demineralization Filter by firmly turning clockwise until tight. (3)
