

VELO AIRMOVER

New!

FASTEST DRYING MOST PORTABLE

The Velo™ airmover breaks performance barriers with unique patent-pending airflow technology!

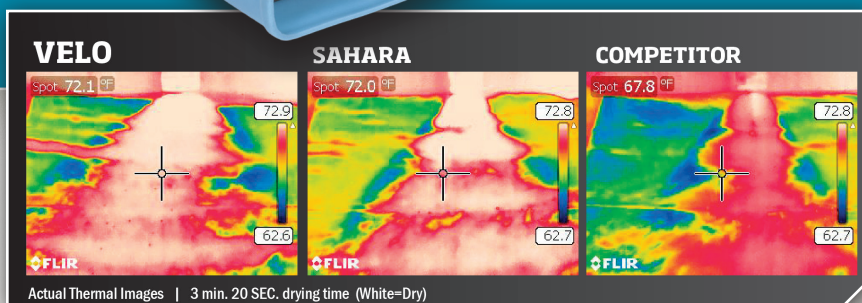

- » **Half the size**
of other airmovers
- » **Ultra-low amps**
- » **5-position versatility**

Velo™ Pro

The Velo's broad-path high velocity airflow drives amazing results – from an airmover that's **half the height of standard carpet dryers** and **draws just 1.9 amps!** With the Velo, you can rapidly dry the largest area ever – or tackle special challenges with any of the unit's **five versatile positions**.

- » **DAISY CHAIN UP TO SIX UNITS PER 15-AMP CIRCUIT WITH GFCI OUTLET** – up to 10 with the Velo Pro
- » **LIGHT ENOUGH TO CARRY TWO OR EVEN FOUR VELOS AT ONCE** or up to six easily with a handtruck!
- » **FIVE DRYING POSITIONS** for walls, ceilings, hallways, staircases, cabinets, crawlspaces
- » **RUGGED ROTOMOLDED HOUSING WITH FLEX HANDLE** – tested lifting four times the weight of the unit 1,000 times without failure (and handle covered by lifetime limited warranty)
- » **FAST CLEANING**– Remove screws and lift out impeller assembly to clean interior easily

Bonus Velo Pro Features

VELO HEPA KIT

Use the Velo or Velo Pro for drying and clear the air for workers or homeowners, especially with asthma or allergies. The kit features a HEPA media filter and pre-filter to minimize dust and particulates during restoration.
