

Installation Instructions

ARCHITECTURAL LOUVER

For Use With Packaged Terminal Units

Please read these instructions completely before attempting installation.

NOTE: These instructions apply to the Packaged Terminal Unit Architectural Louver Installation Kit ONLY. Refer to chassis Installation/Operation manual and Wall Sleeve Installation Instructions for additional information.

Check box for parts listed in **Figure 1**.

Figure 1 Parts list - Architectural Louver	
Quantity	Description
1	Architectural Louver
4	#10-24 x 1" Threaded Metal Studs
4	#10-24 Hex Nuts
4	7/32" I.D. Flat Washers

Installation

1. Screw a threaded metal stud into each of the holes at the four corners of the louver.
2. From inside the building, grasp the louver at the vertical supports and maneuver the louver through the wall sleeve. Pull towards you until the threaded studs are inserted into the four holes of the wall sleeve.
3. While holding the louver with one hand, start washers and nuts on each of the four studs. Tighten the nuts securely.

CAUTION: Bodily injury can be caused by louvers falling from a building during installation. It is recommended that a safety line be attached to the louver and an anchor point inside the building during installation.
