

RETROFIT GRILLES

With our oversize grilles **KING** provides a simple and quick way to retrofit any size heater being replaced. All you need to do is:

- 1) Measure the wall opening or grille of the existing heater.
- 2) Choose the **KING** retrofit grille large enough to cover the old heater.
- 3) Remove the old wall can.
- 4) Center the **KING** wall can in the existing hole.
- 5) Make electrical connections.
- 6) Install the retrofit grille.

The old heater is replaced without having to patch the wall, saving you time and money!

X	MODEL	HEATER SERIES	GRILLE DIMENSIONS
