Introduction

XPOWER Low Profile Air Movers are ETL & C-ETL certified professional level multi functional blowers / fans with the most efficient engineering design.

Feartures:

- Low power draw with a high velocity air flow from 1050 CFM to 1150 CFM
- Super quiet and super light weight
- Easy carry handle and stackable up to 6 units high
- Quick to disassemble for thorough cleaning and service
- Convenient cord wrap design
- Power cord length up to 15'
- Safety screens on open vents
- Built-in power outlets for daisy chain
- Durable and rugged housing with 1 year warranty

Operation Instructions

XPOWER Low Profile Air Movers are intended to move air and to dry floors, walls, furniture, etc. Durable and easy to operate with an effective balance of static pressure and airflow, the units are suitable for a variety of applications.

1. XPOWER Low Profile Air Movers are shipped ready-to-use. Prior to plugging the unit into the power source, inspect completely for any shipping damage.
2. Plug the electrical cord into a standard 3-prong outlet.
3. Carefully place the unit on a stable, flat dry surface.
4. Turn the switch to desired speed, while making sure unit operates normally.
5. To Reduce the risk of injury, close supervision is necessary when the appliance is used near children. Do not allow children to play with or around an air mover at any time.

STORAGE:

Low Profile Air Movers can be stacked (up to 6) high for storage.

Safety Instructions

1. To prevent electric shock, do not operate the unit in standing water. Never plug in or unplug the unit with wet hands or while standing in water.
2. To avoid risk of injury, do not redirect air flow at face or body.
3. To reduce the risk of fire or electric shock, do not use the Low Profile Air Mover with any solid-state speed control device.
4. Use only with GFCI protected receptacles. Please contact a qualified electrician for verification and / or installation of a GFCI receptacle if necessary.
5. Do not operate the Low Profile Air Mover with a damaged cord or plug. Discard the unit or return it to an authorized service facility for examination and / or repair.
6. Unplug the Low Profile Air Mover from the power supply before servicing or cleaning.
7. Do not run the power cord under carpet. Do not cover the cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
8. Do not allow children to play with or around the Low Profile Air Mover at any time.
9. Do not move or carry the Low Profile Air Mover while the unit is operating.

(Continued at Page 6)

Safety Instructions

10. Always place the Low Profile Air Mover on a smooth and level surface for safe operation.
11. Any misuse or abuse of this product will void its warranty.
12. It's automatically operated device. To reduce the risk of injury disconnect from power supply before servicing.

Maintenance Instructions

1. To keep the Low Profile Air Mover clean, use a damp cloth to wipe the surface of the housing.
2. Never clean the Low Profile Air Mover with water.
3. When not in use, unplug and store the Low Profile Air Mover in a dry indoor place out of reach of children.
4. Always disconnect the Low Profile Air Mover from its power source before cleaning, disassembly, or servicing,

Troubleshooting

Accessories

Daisy Chain Specifications

XPOWER Low Profile Air Mover is daisy chainable with a low 2.8 amp draw. The 12-amp on-board circuit breaker will allow three (3) additional same units to run on one circuit at the same time.

Note:
Low Profile Air Mover has an on-board circuit breaker. If the auxiliary outlet overloads, the circuit breaker will trip. If the breaker trips, unplug the units and press the circuit breaker reset button. Plug the units back into the power source and turn on the switch.

Hour Meter (For XL-760AM)

A embed Hour Meter automatically accumulates operated time for Low Profile Air Mover. The number indicates worked hours for the unit, and can not be revised.

XPOWER Limited Warranty (USA)

XPOWER's Limited Warranty covers the unit (excludes power cord, filters, motor brushes, hoses and any other consumable parts) from defects in material and craftsmanship. The Warranty covers normal use for a term of one year from the original date of purchase including parts, labor, and one way shipping. Non-contiguous states must pay for roundtrip freight. Warranty honored with original proof of purchase only.

Important!

This Warranty does not cover or apply to defects directly or indirectly due to misuse, abuse, disassembly, alteration, corrosive chemicals, improper voltage, fire, flood, negligence, accident, improperly or incorrectly performed maintenance or repair, or failure to perform necessary maintenance or repair, or if the use of this product is not in compliance with the instructions and specifications for its use.

Service

For Warranty service and parts replacement (US customer only), you must:

- A. Call 1-855-855-8868 for a RMA (Return-Merchandise-Authorization) number.
- B. Have original proof of purchase provided.
- C. Use the original undamaged packaging or an industrial certified packaging method.

End user will be responsible for shipping the unit (with RMA Number showing on the shipping label) to XPOWER Customer Service Department. XPOWER will inspect, assess and advise the repairs needed and applicable cost, if any.

For users outside US, please contact an XPOWER Distributor in your country or region for warranty service and parts replacement.

Warranty Registration (for US customer only)
