

COMPLETE ROOM COMFORT WITH EASY-TO-USE CONTROLS

* Left: 9,000 & 12,000 BTU/h
* Right: 18,000 BTU/h

- Electronic touch pad with remote control.
- High energy efficiency with models up to 10.9 CEER saving you money when compared to lower CEER models.
- Solid bottoms on outercases for full seal-thru-the-wall installation.
- 100% full factory run test on all units for high reliability and dependability.
- Ball bearing fan motors that are reliable, start quickly and run quietly.
- Multi-directional airflow to allow for cooling or heating to any part of the room. Some models contain automatic 2-way air swing feature.
- Easy access filter has a permanent polypropylene filter mesh that is easy to remove and clean.
- Hydrophilic coating on evaporator and condenser coils on ALL models which allows better moisture removal, increased air flow, increased heat exchange, higher efficiencies and longer compressor life than units with uncoated coils.
- Condensate drain spouts on ALL models to direct condensate drainage.
- LCDI power cords to help reduce crimping or cuts on power cords.
- R-32 Refrigerant: 68% lower Global Warming Potential (GWP) and can reduce direct emissions from refrigerant by up to 73.6% as compared to R-410A.

*All units meet or exceed 06-01-14 D.O.E. CEER minimums

Features (all models)

Electrical	4.0' LCDI power cord; perpendicular plug; 20-amp circuit breaker
Agency approval	UL (Underwriters Laboratory) listed; USA and Canada
Chassis type	Slide-out for easy installation and service accessibility
Fan speeds	3 speeds, high, medium and low
Fan only	Yes - high, medium and low speed
Condensate drain	No
Window kit	Yes - included

Plug Type

Perpendicular
20 amps
250 volts
