

MOBILE EVAPORATIVE COOLERS

High Velocity Cooling Fan With Storage—Utility Top & Push / Pull Handle

Safety Feature: Reduces Heat Stress, Ideal For Rehab / Cooling Down Areas
Evap Feature & High Velocity Air Throw Significantly Cools Discharge Air

Top Ideal For Storing:

First Aid Kits / Safety Equipment
Rehydration Drinks
Cooler / Ice Chest
Maintenance Supplies
Toolboxes / Tools

Specifications:

Hessaire PN	M270R	Feature #1	Utility Tool Storage Top
Prop Diameter	19"	Feature #2	Heavy Duty Casters
Max. Air Flow	5300 CFM	Feature #3	Push / Pull Handle
Area Coverage	1600 Sq.Ft.	Tank Capacity	14.6 Gal.
FPM @ Face	1305	Plug Type	5-15P
Horsepower	1/3	Electrical	4.3 Amps, 430 watts
Voltage	115	Assembled Wt.	68 lbs
Speeds	3	Assembled Dim	30"x18"x46"
Control Type	Rotary Switch	Color	Fire Brick Red
Housing Mat'l	Polypropylene	Decibels @ 10ft	62.5

Features:

- Best in class airflow velocity
- High density media for maximum cooling effect
- 3 sided pad intake = high velocity air output
- Low energy consumption (low amps)
- Sweep function = wider area coverage
- Flat top holds tools, water bottles, supplies
- Simple, easy-to-use controls
- Lightweight, easy to transport
- Heavy duty casters for easy movement
- Small footprint = space saving
- Polypropylene construction, impact resistant
- Manual water fill door or garden hose hook up
