

DehuLink™

Humidity Happens, but now you can take control of it from anywhere in the world. DehuLink™ is an optional Wi-Fi module for the IW-25-6 and IW-25-5. It is a simple plug and play product that can be field installed. Anything you can display or control while standing in front of your dehumidifier you can do from your smartphone.

Things like:

- Turn the unit on/off
- Check room relative humidity
- Check room temperature
- Change the Target Humidity setting
- Change fan speeds (IW-25-6 only)
- Check filter life status
- See error codes
- Part number 14-294033600

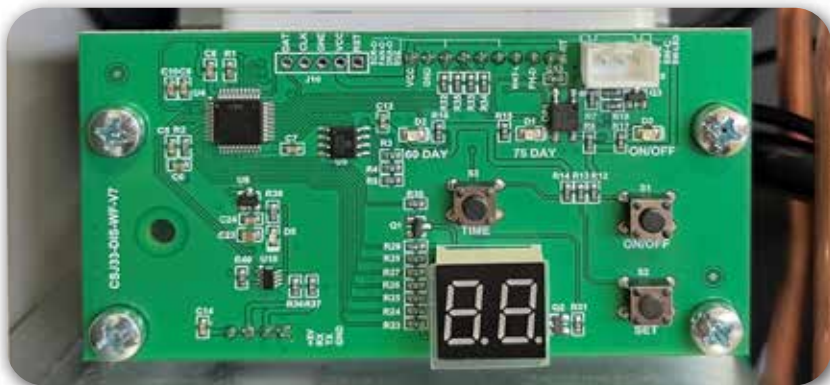

Display versions and Compatibility

If your Display looks like:

You have an IW-25-6. All of these dehumidifiers are compatible.

You have an IW-25-5. Some of these dehumidifiers are compatible.
See Below.

IW-25-5 Display versions:

- If your display is attached to the bracket with 4 screws as shown, your dehumidifier is compatible.
- If your display is attached to the bracket with 4 nylon clips, you will need to install a Communication Upgrade Kit (14-294033508).

(Kit includes a new Display Board and Wi-Fi Dongle.)
