

Advanced Electronic Deodorizing Technology

QT Thunder

Ozone Generator

The **Queenaire QT Thunder** is designed for simple and effective odor treatment in unoccupied spaces up to 2,500 sq. ft. With a fixed ozone output of 300 mg/hr and a 60-minute timer, this unit delivers consistent performance without the need for complicated adjustments.

Its straightforward design makes it an ideal choice for hotels, condos, multi-family residences, or any situation where a reliable, easy-to-use ozone generator is needed to address persistent odors.

Key Benefits

- ✓ **Destroys Odors at the Source:** Oxidizes and eliminates odor-causing gases from smoke, pets, food, mold, mildew, garbage, and renovation VOCs—removing odors rather than masking them.
- ✓ **Broad-Spectrum Treatment:** Neutralizes contaminants in the air and on surfaces, including fabrics, walls, ceilings, and water.
- ✓ **Independent of Airflow:** Unlike filters or traditional air purifiers, ozone disperses naturally to reach and treat the source of contamination.
- ✓ **Ion Generation for Cleaner Air:** Corona discharge technology produces ions that cause dust and particulates to clump together and settle, improving overall air quality.
- ✓ **Enhances Environmental Hygiene:** Promotes cleaner, healthier, and more sanitary spaces by addressing both airborne and surface contaminants.
- ✓ **Versatile Applications:** Effective across restoration, remediation, facility maintenance, and other commercial or industrial environments.

Maintenance Kits

Keep Your System Performing at Its Best

Any device that moves air through it needs regular cleaning and preventive maintenance—just like HVAC systems, automobile cabin air filters, or room air cleaners. Queenaire, Rainbowair, and Newaire systems are no exception. Routine maintenance helps your equipment operate safely, efficiently, and consistently to deliver the fresh, clean air you expect. That's why we provide maintenance kits for all of our products, making it easy to protect your investment and keep your system performing at its best.

Maintenance Kit QTKIT300

Kit includes (1) ceramic dielectric plate, (2) fuses, (6) alcohol wipes, and clear cleaning and replacement instructions for a hassle-free experience.

*Please note that Sporax filters are not required for this unit, which is why they are not included in the maintenance kit.
