

▶ SANTA FE AIR PURIFIER

THE SANTA FE **AIR PURIFIER**

UTILIZES HEPA-GRADE FILTRATION
AND UV STERILIZATION CLEANING
YOUR AIR WHILE BEING WHISPER
QUIET

MODEL 4033170

FEATURES

HEPA Filtration

- + Filters out 99.97% of pollutants
HEPA filtration helps keep you healthier by filtering out pollutants like pollen, dust, mold, bacteria and, airborne viruses.

UV Sterilization

- + One-touch UV activation
UV sterilization kills all types of microorganisms, including drug-resistant bacteria.

Purifies Air

- + Works to kill bacteria and virus with UVA+UVC process
By removing pollutants in the air can lead to several immediate and long-term health benefits, such as better sleep quality and increased life expectancy.

Quiet Operation

- + Low noise with Sleep Mode for quiet operation
Sleep mode ensures the quietest setting to minimize noise while purifying your air.

Eliminates Odor

- + Combats odor causing material with activated carbon filter
Neutralizes and removes unpleasant odors throughout your home or office.

Air Quality Indication

- + Real-time air quality display with auto speed adjustment
Allows you to see how clean your air is and feel confident that you and your family are breathing fresh, purified air at a glance.
