TOP TO MANTEL	0 in.
TOP TO CEILING	4 in. [102 mm]
BACK	0 in.
FRONT	36 in. [914 mm]

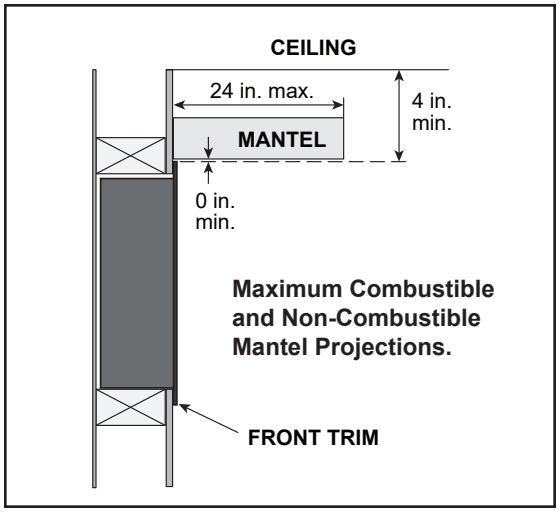

APPLIANCE LOCATION

FINISHING DIMENSIONS

MANTEL PROJECTIONS

The Allusion Edge slides into a framed and finished wall and is compatible with finishing materials such as painted drywall, tile, and other smooth finishes such as porcelain and granite.

The drywall/finishing material must be installed before installation of the appliance into the wall. Drywall/finishing material must be brought to the edge of the framed opening to ensure that the front trim of the appliance overlaps the finishing material on all sides.

The appliance requires a minimum combined wall framing and drywall/finishing material thickness of 5-3/4 inches, such as a 2x6 framed wall with a minimum of a 1/4 inch of drywall/finishing material.

The maximum thickness of drywall/finishing material is 1-1/2 inches, making the accepted range 1/4 to 1-1/2 inches.

APPLIANCE CERTIFICATION

MODEL: SF-ALLE60

LABORATORY: CSA International

TYPE: Electric Air-Heaters; Fixed and Location-Dedicated Electric Room Heaters

STANDARD: CSA C22.2 No 46-13; UL 2021 (4th Edition)
