MARATHON 2000

MARATHON 2000 CARPET EXTRACTOR

Rugged intelligent design, setting new standards for carpet extractors

MARATHON 2000

From the innovative leader comes a carpet extractor with features, performance, and a price that are quite simply unsurpassed by the competition. This 20-gallon, self-propelled, forward-operation unit sets a new standard among self-contained carpet extractors. This rotationally-molded unit truly stands up to the rigors of daily use. Its 22" recovery shoe, 20-gallon solution tank, and 20-gallon recovery tank clean in the forward mode and handle large area extraction jobs with ease and efficiency.

A 100 psi solution pump penetrates carpets deep-down and a three-stage vac motor with 135" waterlift ensures optimal cleaning performance.

A sealed transaxle drive system, two large wheels, and twin front swivel castors provide easy transport over even the heaviest of carpet. The Marathon 2000 can cover up to 8,500 ft² per hour, has variable, operator-controlled speed, and comes complete with a 22" vac shoe, pre-spray wand, and detachable 75-foot power cord.

Quick-fill solution tank
The 20-gallon solution tank permits long periods of uninterrupted operation between refills.

Service-friendly
The Marathon 2000 is easily and quickly accessible for service and maintenance operations.

Professional design
A 22" vac shoe, easy-access drain hoses, and detachable 75-foot power cord are standard features on the Marathon 2000.

Rugged construction
The Marathon 2000 is a rotationally-molded unit designed to face the rigors of everyday use. A simple, two-piece main body provides added durability.

Mobility
Transaxle drive, large rear wheels, and front swivel casters make transport simple and efficient.

High-performance carpet extraction
An adjustable brush, 100 psi solution pump, and 22" vac shoe provide deep-down cleaning in one pass.

Versatile
The Marathon 2000 is ideal for large offices, lobbies, hallways, banquet rooms, and other carpeted areas where cleaning and extraction are a must.

Large-capacity recovery
A 20-gallon recovery tank has a clear cover for monitoring the tank level. The cover is sealed with a heavy-duty gasket for optimal recovery performance.

Operator-friendly
A simple, easy-to-use control panel allows the operator to control speed, solution, and recovery functions. The handle continues Tornado's excellence in ergonomic design and commitment to operator comfort.

Built-in spray wand
The unit comes standard with a pre-spray hose and wand for handling edges, corners, and spotting operations.
