

Delta-1

Advanced Version of Hydro-X System

Delta-1 is a customized made variable-frequency drive (VFD) by Delta company, that have all the parameters preset and ready to be operated with VFD-1 module straight out of the box.

It can be used in the TrolMaster Hydro-X Pro system to control and adjust the speed of AC motors (industrial fans etc.) in your application. An RJ45 cable is included for connecting with the TrolMaster VFD-1 module.

Specifications

Delta-1

Input

Normal Duty 3PH 380-480V 50/60Hz 11.6A

Heavy Duty 3PH 380-480V 50/60Hz 9.9A

Output: Power ND(HD) 5HP(5HP)

Normal Duty 3PH 0-460V 10.5A 8.0KVA 3.7KW

Heavy Duty 3PH 0-460V 9A 6.9KVA 3.7KW

Frequency Range 0-599Hz

Package Contents

Delta-1 1

RJ45 1

Product Dimension

Length x Width x Height 6.3 x 3.39 x 3.39 Inch

160 x 86 x86 mm
