

# F700

## FORMALDEHYDES - VOCS

**TRAP FORMALDEHYDES  
AIRBORNE CHEMICALS  
VOCS AND PARTICLES**

**THE AIRPURA F700**  
Available in White / Black / Cream

**THE AIRPURA LIMITED WARRANTY**  
5 years parts / 10 years labor

## THE AIRPURA F700

**MODERN INTERIORS RELEASE HARMFUL CHEMICALS** Formaldehyde from renovation, construction, furniture, carpets. Ammonias from cleaning materials. Pesticides tracked in from outdoors. Benzene, toluene from heating fuels, paints and glues and numerous acid problems.

**AIRBORNE CHEMICALS IN WORK AREAS** Work areas are often contaminated by chemicals released by manufacturing processes and office equipment. The resulting symptoms which may include headaches, drowsiness, rhinitis, other respiratory problems and the possible onset of cancers.

**A GOOD INVESTMENT** An enhanced chemical filtering system is a good investment to prevent the personal distress and productivity losses that may result.

**ASK OUR AIR QUALITY EXPERTS** Airpura can recommend specially blended carbons to deal with your specific airborne chemical problem. Solutions for over 4000 chemicals are available.

**EFFECTIVE FOR UP TO 2,000 SQUARE FEET** Recycles the air approximately every 30 minutes.

## SPECIALLY DESIGNED TO REMOVE FORMALDEHYDE

### DWELL TIME

For best results the correct dwell time of the pollutants over the enhanced carbon bed is vital. The 635 CFM impeller/motor combined with the fixed speed control and unimpeded airflow of the Airpura 600 series allows you to set the airflow precisely and achieve the results you need.

### EXPERTISE YOU CAN CALL ON

Airpura indoor air quality experts can offer you a solution to most airborne chemical problems. Contact your Airpura dealer or call us directly to discuss your needs.

## FILTER LIFE

**PREFILTER** should be replaced every 12 months.

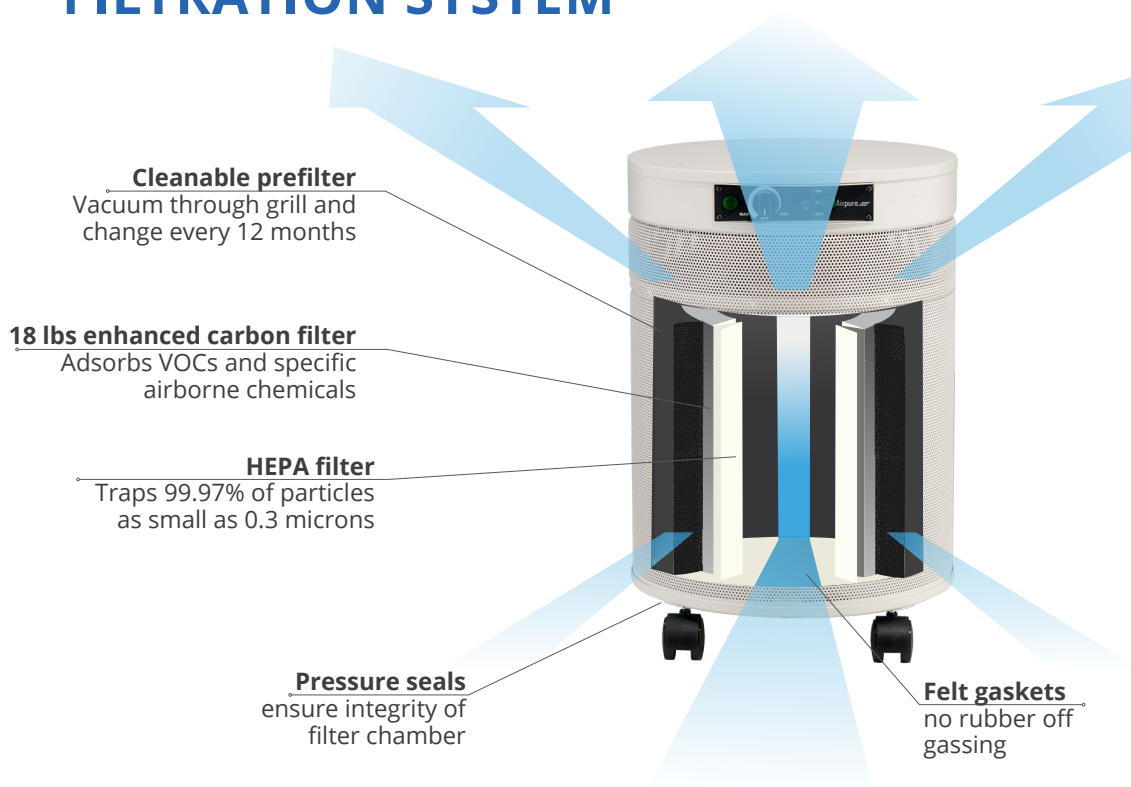

**CARBON FILTER** should be replaced every 2 years.

**HEPA FILTER** should be replaced between 3 and 5 years (depending on use).

EXPERIENCE THE EVOLUTION OF CLEAN AND HEALTHY AIR

## FILTRATION SYSTEM

## UNIQUE FEATURES

**PRESSURE SEAL** Airpura's unique pressure seal on the filter chamber ensures that all of the dirty air passes through the filters. Other systems allow leakage and do not achieve the 99.97% HEPA filtration rating.

**FELT GASKETS** seal the filter chamber. Maximize filtration with no rubber off-gassing found with other makes.

**ALL METAL HOUSING** ensures no plastic vapors are emitted.

**BACKWARD CURVED MOTORIZED IMPELLER** eliminates the vibrations and noise associated with older motor and shaft set ups.

**VARIABLE SPEED MOTOR** lets you choose your ideal level of filtration.

**MOTOR OUT OF THE AIR FLOW.** Most air purifiers blow the clean air over the motor and pick up new impurities before exhausting it.

**UNIMPEDED AIRFLOW** simple and direct internal airflow avoids the air turbulence, inefficiency and noise associated with more convoluted systems.

**SEPARATE ELECTRICAL PARTS CHAMBER** prevents any off gassing from capacitors, condensers or switches.

**PERFORATED STEEL EXTERIOR** offers both a softer appearance and 360 degree air intake and distribution.

**SEPARATELY CHANGEABLE FILTERS** The Hepa and carbon filters can be changed separately so you only change them when appropriate and save operating costs.

## TECHNICAL SPECIFICATIONS

### ODOR, AIRBORNE CHEMICAL CONTROL

18 lbs enhanced, carbon  
13"H x 13.25"OD x 9"ID

### CARBON BED

570 sq in x 2" deep

### PARTICLE REMOVAL

40 sq ft true HEPA  
(Measured 1 side only)  
10 pleats per inch  
Pleats warm rolled  
with separators  
Metal capped to avoid  
plastic off gassing

### AIR FLOW 635 CFM

More cfm than any  
other home unit  
available

### PRE-FILTER

570 sq in x 1 in deep

### SIZE

23" x 15"

### WEIGHT

43 lbs total

### VOLTAGE OPTIONS

115 or 220 volts

### WATTS

120 on high / 40 on low

### SOUND LEVEL

30.2 db on low (at 6 feet)  
63.0 db on high (560 cfm)

### ETL CERTIFIED

Conforms to ANSI / UL  
507
